

Interim report for the first half of 2008

Growth in earned premiums and insurance earnings but weaker investment return

Highlights (compared with the first half-year of 2007)

- Gross earned premiums were DKK 8,571m, up 4.9% in local currency terms (5.7% in DKK terms).
- Technical result was up by 3.4% to DKK 1,321m
- Combined ratio of 87.6
- Gross investment return of 0.9%. Investment return of DKK -500m after transfer of technical interest
- Pre-tax profit of DKK 801m
- Profit after tax of DKK 534m
- 17% return on equity before tax

- The number of policies increased by 171,500 in the first half of 2008, of which Finland and Sweden accounted for 111,500.
- TrygVesta has signed a cooperation agreement with DLG for the distribution of insurance products in Denmark and Sweden.
- The full-year outlook for premium growth is retained at 5%. The outlook for the technical result is increased from DKK 2.4bn to DKK 2.6bn and the outlook for combined ratio is improved to 88 from 89. The pre-tax profit outlook is retained at DKK 2.3bn, however, the outlook for net income is lowered by DKK 100m to DKK 1.5bn due to lower tax-free equity income.

TrygVesta hosts a webcast and teleconference on Tuesday, 19 August 2008, at 9:30 CET
 To participate in the teleconference, please call +44 208 817 9301 or +45 70 26 50 40.

The interim financial statements are unaudited.

The Group's performance

Compared with the first half-year of 2007, unless otherwise indicated.

- Premium growth of 4.9% in local currency terms (5.7% in DKK terms) in first half of 2008
- Claims ratio down by 1.6 percentage points to 66.5
- Expense ratio retained at 17.0 despite strong growth and higher payroll costs
- Higher claims expenses in the Nordic region and particularly on building insurance may result in new initiatives to maintain profitability

Premium growth of 4.9%

The Group recorded gross earned premiums of DKK 8,571m in the first half-year of 2008, which was DKK 465m, or 4.9% in local currency terms (5.7% in DKK terms), more than in the same period of 2007. The increase was primarily attributable to strong growth in Private & Commercial Norway and Corporate of 4.1% and 6.6%, respectively, in local currency terms.

Activities in Finland and Sweden recorded aggregate growth of 81.4% or DKK 118m to DKK 263m in the first half of 2008, and the total portfolio in the new markets stood at DKK 630m at 30 June 2008. Growth was attributable to a sustained high inflow of customers. In Finland, it was a direct result of the sales organisation being enhanced and enlarged. Sweden and Finland accounted for 1.5 percentage points and Denmark and Norway accounted for 3.4 percentage points of the Group's total premium growth of 4.9%.

In the second quarter of 2008, Private & Commercial Norway contributed growth of 4.7% in local currency terms, compared with 3.6% in the first quarter of 2008. The sustained improvement was attributable to an increased inflow of customers and to the price increases which were initiated in 2007 and continued in 2008. In Private & Commercial Denmark, gross earned premiums were 0.7% higher (0.8% after bonus/premium rebates) in the second quarter of 2008. The performance of Private & Commercial Denmark was below expectations. Backed by various initiatives within motor and house owners' insurance launched in the first half-year of 2008, premium growth is expected to increase during the remainder of 2008.

Year-to-date, the portfolio had grown by a net amount of some 171,500 policies, with Finland and Sweden accounting for 111,500 policies.

Claims

Gross claims rose 3.2% to DKK 5,699m compared with DKK 5,523m in the first half of 2007. The claims ratio, net of ceded business, was 70.6 in the first half-year of 2008 against 70.1 in the same period of 2007. The DKK 176m increase in gross claims incurred was primarily attributable to higher repair costs as a result of higher wages and higher costs of materials. On the other hand, the first six months of 2008 were favourably affected by run-off gains amounting to DKK 393m against DKK 322m in the same period of 2007.

The number of large claims was lower than expected in the first half of 2008 and lower than the same period of 2007. Large claims amounted to DKK 179m (DKK 155m net) before reinsurance compared with DKK 473m (DKK 312m net) in the first half of 2007.

Weather-related claims were DKK 57m compared with DKK 101m in the first half-year of 2007. The reduction was primarily due to the mild winter.

Adjusted for the effect of large claims, weather-related claims, run-off results and interest rates, the underlying claims ratio increased. This was primarily attributable to Private & Commercial Denmark, which recorded higher average building claims and higher claims within the health area. The higher average building claims were driven by higher wages and higher costs of materials. To counter the effect of these factors on the Group's financial results, TrygVesta has already launched a number of initiatives and additional measures have been scheduled to maintain the favourable claims level.

Costs kept steady despite high level of sales

Selling, marketing and administrative expenses at DKK 1,459m were up by DKK 79m, or 5.7%, in the first six months of 2008. The performance was impacted by the continued expansion in Finland and Sweden, which together recorded expenses of DKK 48m more than in the first half of last year. Expenses in the Norwegian and Danish activities increased by 3.6%. The Group's gross expense ratio was unchanged at 17.0. The expense ratio in the Norwegian and Danish activities fell to 15.7 from 16.0.

The development in expenses included higher payroll costs, generally up by approximately 6% in the Danish and Norwegian financial sectors in the first half of 2008. Staff turnover in Norway was furthermore affected by strong demand for qualified employees in the labour market. As a result of the general pay increases, TrygVesta will increase its focus on costs in the second half of 2008.

Technical result

The technical result amounted to a profit of DKK 1,321m in the first half-year of 2008, an improvement of 3.4%, or DKK 43m, attributable to strong premium growth, run-off gains and a higher level of interest rates. The improvement was furthermore achieved despite costs related to the expansion in Finland and Sweden.

In the second quarter of 2008, the technical result amounted to a profit of DKK 684m, or DKK 61m lower than in the same period of 2007. Contributing factors included a higher number of claims, higher costs of health claims and higher selling expenses. Moreover, the Norwegian private business was hit by a higher number of and more expensive claims relating to fires in single-family houses.

Combined ratio affected by claims inflation

The combined ratio amounted to 87.6 in the first half of 2008 relative to 87.1 in the same period of 2007. The adverse development was mainly attributable to higher average building claims, higher motor claims frequencies and higher selling expenses. Large claims and weather-related claims had an impact of 1.8 and 0.7 percentage point(s), respectively. Run-off gains had a favourable impact on the combined ratio of 4.8 percentage points.

Investment return

The investment portfolio amounted to a total of approximately DKK 37.1bn at 30 June 2008. Investment activities yielded a total return of DKK 14m compared with DKK 923m in the first half of 2007. The decline was primarily attributable to a loss in the value of equities of DKK 466m in aggregate against a DKK 458m gain in the first six months of 2007. Capital losses on equities mainly occurred in the first quarter of 2008, whereas the price falls in June 2008 had a more limited effect on the second quarter investment return as a result of the lower weight to equity investment implemented at the beginning of January 2008.

Rising bond yields throughout the second quarter of 2008 resulted in a negative bond return, which was largely off-set by value adjustments of provisions as a result of a higher discount rate.

After transfer of technical interest of DKK 725m and other financial income and expenses, the investment result amounted to a net loss of DKK 500m, which was DKK 974m lower than in the same period of 2007.

In the second quarter of 2008, the investment result amounted to a net loss of DKK 135m against a net profit of DKK 322m in the same period of 2007. Equities accounted for a DKK 44m loss in the second quarter of 2008.

The turmoil in the financial markets underlines the importance of focusing on profitable insurance operations.

Profit before and after tax

The Group posted a pre-tax profit of DKK 801m against DKK 1,745m in the same period of 2007. The performance was composed of a strong technical result of DKK 1,321m, an improvement of DKK 43m on the same period of 2007, and a loss on investment activities of DKK 500m, which was DKK 974m lower than in the same period of 2007.

Profit after tax was DKK 534m in the first half of 2008 against DKK 1,360m in the same period of 2007.

Capital losses on equities are non-deductible and based on the Group's capital losses of the first half-year, the effective tax rate was 33%.

Return on equity

At 30 June 2008, equity stood at DKK 8,846m against DKK 10,010m at 1 January 2008. The change was primarily attributable to a dividend payment of DKK 1,156m, share buybacks of DKK 424m and the favourable impact of the financial results for the first half-year of 2008. The annualised return on equity was 17% before tax in the first six months of 2008.

Operational highlights

- Competition changed in the first half-year of 2008, as the small Danish insurers refocused on balancing price and risk. In Norway, the companies leveraged on the opportunity to create a better balance between higher average claims and premium performance through new premium adjustments.
- In June 2008, the Group's roadside assistance product ("Tryg Vejhhjælp") was added to the motor insurance coverage held by around 200,000 Danish concept customers at no additional cost. At the same time, the Group started selling "Tryg Vejhhjælp" to customers not comprised by Tryg's concept benefits and the extended roadside assistance product "Udvidet Tryg Vejhhjælp" to all customers. Sales of "Tryg Vejhhjælp" are ahead of projections, and the product is the most recent example of innovation supporting the Group's role as a peace-of-mind provider.
- In mid-August 2008, the Danish business will launch a new health product for corporate customers. The product focuses on employee health and offers help towards adopting a healthier lifestyle through health checks, help for exposed groups and status reports offering specific plans of action for helping companies improve the health of their employees.

- TrygVesta has employed a manager for the Swedish corporate business, and the Corporate business will open an office in Stockholm, Sweden at the beginning of September 2008.
- The number of customers in the Oslo region began to rise again in the first half of 2008 after a period of decline. The renewal rate also performed favourably in the Oslo region, increasing by 1 percentage point.
- The business in Finland expanded its distribution network by 40 new insurance agents in the first half of 2008.
- TrygVesta has signed a cooperation agreement with DLG, Denmark's leading supplier of agricultural products, for the distribution of insurance products in Denmark and Sweden. DLG, which also spans telecommunications, food products and machinery, generates revenue of DKK 24bn and has 5,000 employees. The agreement is expected to contribute to earned premiums and earnings from 2009.

Private & Commercial Denmark

Private & Commercial Denmark sells insurances to private households and small and medium-sized enterprises in Denmark under the Tryg brand name. Sales are handled by five customer centres/call centres, 16 local service centres, affinity groups, car dealers, real estate agents and Nordea's branches. Private & Commercial Denmark has around 1,400 employees.

- Growth in gross earned premiums up by 1.1% (0.6 % including bonus/premium rebates)
- Combined ratio of 84.4 in the first half of 2008 against 83.8 in the same period of 2007.
- Renewal rate remained high at around 91

| DKKm | Q2 2007 | Q2 2008 | Change 2007/2008 | H1 2007 | H1 2008 | Change 2007/2008 |
|--|------------|------------|---------------------|------------|------------|---------------------|
| Gross earned premiums | 1,642 | 1,655 | 0.8% | 3,263 | 3,284 | 0.6% |
| Gross claims incurred | -1,031 | -1,112 | -7.9% | -2,117 | -2,197 | -3.8% |
| Gross expenses | -287 | -270 | 5.9% | -563 | -527 | 6.4% |
| Profit/loss on gross business | 324 | 273 | -15.7% | 583 | 560 | -3.9% |
| Profit/loss on ceded business | -29 | -27 | 6.9% | -52 | -50 | 3.8% |
| Technical interest, net of reinsurance | 43 | 53 | 23.3% | 83 | 95 | 14.5% |
| Technical result | 338 | 299 | -11.5% | 614 | 605 | -1.5% |
| Key ratios | | | | | | |
| Gross claims ratio | 62.8 | 67.2 | -4.4 | 64.9 | 66.9 | -2.0 |
| Business ceded as % of gross premiums | 1.8 | 1.6 | 0.2 | 1.6 | 1.5 | 0.1 |
| Claims ratio, net of ceded business | 64.6 | 68.8 | -4.2 | 66.5 | 68.4 | -1.9 |
| Gross expense ratio | 17.5 | 16.3 | 1.2 | 17.3 | 16.0 | 1.3 |
| Combined ratio | 82.1 | 85.1 | -3.0 | 83.8 | 84.4 | -0.6 |

Earned premiums

Gross earned premiums in the first half-year of 2008 rose by DKK 21m, or 0.6%, relative to the same period of 2007. In the second quarter of 2008, gross earned premiums were DKK 1,655m, equalling an increase of DKK 13m, or 0.8% (0.7% before bonus), relative to the second quarter of 2007. Premium growth in the first half of 2008 was weaker than anticipated, partly due to price reductions in motor insurance. In previous years, the price on motor insurance fell by 3%-4%, but the decline slowed down in the first half-year, spurring expectations of a gradual improvement of premium growth in the remainder of 2008. Premium performance on motor insurance is expected to improve in the second half of 2008 through "Tryg Vejrhjælp" and upcoming campaigns. Average motor premiums fell by 2.4% relative to the first half-year of 2007, while average building premiums increased by 2.1% during the same period.

In 2007 and in the first six months of 2008, the market was characterised by tougher competition especially from small insurers. However, price competition is deemed to have abated in the first half of 2008, as insurers increased their focus on balancing growth and earnings.

The renewal rate remained unchanged at around 91 in the first half of 2008, and the number of policies increased by 26,000 during the reporting period.

In the second quarter of 2008, some 200,000 concept customers received "Tryg Vejrhjælp" at no additional cost as a customer benefit on their motor insurance. At the same time, sales of "Udvidet Tryg Vejrhjælp" to these customers

have been a great success, which confirms that customers are welcoming the Group's ambition to continuously improve the quality and service it provides.

In mid-August 2008, the Danish business will launch a new health product for corporate customers. The product focuses on employee health and offers help towards adopting a healthier lifestyle through health checks, help for exposed groups and status reports offering specific plans of action for helping companies improve the health of their employees.

TrygVesta has signed a cooperation agreement with DLG, Denmark's leading supplier of agricultural products, for the distribution of insurance products in Denmark and Sweden. DLG, which also spans telecommunications, food products and machinery, generates revenue of DKK 24bn and has 5,000 employees. The agreement is expected to contribute to earned premiums and earnings from 2009.

Claims

The claims ratio rose to 66.9 from 64.9 in the same period of 2007. Run-off gains had a positive impact of 5.3 percentage points on the performance against 4.5 percentage points in the same period of 2007. The run-off result was positively affected by motor policies, whereas building insurance reserves were strengthened.

Motor claims frequencies increased by approximately 8% in the first half of 2008. Developments in average motor claims were moderate, increasing some 2% relative to the first half-year of 2007. In comparison, average motor claims for the market as a whole increased by approximately 3% in the same period. TrygVesta owes its ability to maintain a lower level of average claims to its cooperation agreements with garages.

Average building claims frequencies rose by around 7%. This improvement was particularly attributable to fewer weather-related claims. Overall, average building claims increased by just over 9% in the first half-year of 2008. The increase in average claims is attributable to rising prices which are feeding through to materials costs and repairer wages. TrygVesta is considering whether higher claims within buildings insurance should lead to price increases.

Expenses

Costs totalled DKK 527m, a decline of DKK 36m relative to the same period of 2007, causing the expense ratio to fall from 17.3 to 16.0. This was attributable to the continued focus on process enhancements. In the light of the higher payroll costs, this focus should be intensified to maintain an unchanged level of costs.

Technical result

The technical result amounted to a profit of DKK 605m in the first half of 2008, a decline of DKK 9m compared with 2007. In the second quarter of 2008, the technical result amounted to a profit of DKK 299m, equivalent to a decline of DKK 39m compared with the same period of 2007. The decline was primarily attributable to the fact that Private & Commercial Denmark was hit by several medium-sized claims in the first six months of 2008, which amounted to DKK 67m against DKK 40m in the same period of 2007. Fewer weather-related expenses and a rising level of interest rates had the opposite effect.

Combined ratio

The combined ratio amounted to 84.4 in the first half of 2008 relative to 83.8 in the same period of 2007. The combined ratio was adversely affected by several medium-sized claims and higher average building claims, whereas higher run-off gains and rising interest rates had a favourable effect on the combined ratio.

Private & Commercial Norway

Private & Commercial Norway sells insurances to private households and small and medium-sized enterprises in Norway under the TrygVesta and Enter brand names. Sales are handled by 85 franchise offices, our own sales agents, three regional customer centres, 35 local sales centres, car dealers and Nordea's branches. Private & Commercial Norway has around 1,100 employees excluding some 300 franchise office staff.

- Gross premiums rose by 4.1% in local currency terms in the first half of 2008
- Combined ratio of 95.7 in the first half-year of 2008 against 93.8 in the same period of 2007 as a result of a strengthening of reserves on group life insurance and a higher number of and more expensive building claims
- Customer retention up by 0.1 percentage point to 86.3%

Premiums

Gross earned premiums in Private & Commercial Norway increased by DKK 138m in the first six months of 2008, or 4.1% (6.4% in DKK terms), relative to the same period of 2007. In the second quarter of 2008, gross premiums rose by DKK 74m, or 4.7% in NOK terms (6.8% in DKK terms). By way of comparison, premiums fell by 1.1% in the second quarter of 2007. The favourable performance was mainly attributable to rising customer loyalty, increased sales and premium increases. Average motor and building claims performed favourably in the first half of 2008, increasing by 1.4% and 3.0%, respectively. The favourable performance was attributable to the premium increases at the level of 2%-3% implemented since mid-2007 and most recently with effect from 1 July 2008. The premium increases were implemented to neutralise the impact from higher average claims.

The number of policies increased by 27,000 in net terms in the first half of 2008, and the number of customers rose by more than 2,500. This positive trend, which will create stronger premium growth going forward, was attributable, among other factors, to the performance in the Oslo region, which recorded growth in the number of customers as a result of targeted efforts including adapted products and new franchise offices. The renewal rate for Private & Commercial Norway improved from 85.9 at the beginning of 2008 to 86.3 in June 2008. This increase was due in part to TrygVesta's transparent price policy, high level of service and quality products.

Claims

The claims ratio rose to 72.6 in the first half of 2008 from 71.4 in the same period of 2007 and was adversely affected by a strengthening of provisions relating to prior-year claims in terms of group life and building insurance. Overall, the run-off result had a negative impact on the claims ratio of 1.6 percentage points compared with a positive impact of 1.3 percentage points in the first half of 2007. The claims performance was adversely affected by several claims relating to fires in single-family houses, which alone impacted the claims ratio negatively by 0.8 point in the first half-year of 2008 relative to the same period of 2007.

As a result of claims inflation, average building claims increased by approximately 8% in the first six months of 2008, whereas average motor claims rose by some 3% during the same period.

Expenses

Costs were up by DKK 56m to DKK 501m relative to the first half of 2007, lifting the expense ratio from 20.4 in the year-earlier period to 21.6. Costs were influenced by general payroll increases in the financial sector and by higher commission expenses as a result of higher sales. Higher sales also caused the expense ratio in the second quarter of 2008 to increase relative to the same period of 2007. The Norwegian financial sector will see annualised salary increases of about 6% in 2008, which will also affect the expense ratio.

Technical result

The technical result amounted to a profit of DKK 163m in the first half of 2008, which was DKK 49m lower than in the same period of 2007. The lower technical result was attributable to higher premium levels, which were affected by higher commission expenses. In the first half-year of 2008, Private & Commercial Norway posted a run-off loss of DKK 39m compared with a DKK 19m run-off gain in the first half of 2007.

In the second quarter of 2008, the technical result amounted to a profit of DKK 102m, which was DKK 69m lower than in the same period of 2007. The reduction was attributable to increased claims expenses particularly in connection with fires in single-family houses and growing sales/commission expenses to sales channels, which benefit greatly from the new customer system implemented in late February 2008.

Combined ratio

The combined ratio amounted to 95.7 in the first half of 2008 relative to 93.8 in the same period of 2007. The higher level was mainly attributable to the fact that the combined ratio was adversely affected by run-off losses and a higher level of costs in the first half-year of 2008 compared with the same period of 2007.

Corporate

Corporate is a Nordic business area which sells insurances to corporate customers under the TrygVesta brand. Corporate's products are sold through its own sales force and through insurance brokers. The Corporate business area has some 10,000 customers each paying annual premiums of more than DKK 900,000 or having more than 50 employees, and around 75 customers each paying annual premiums of more than DKK 10m. The Corporate business area has some 500 employees.

- Gross earned premiums up by 6.6% in the first half-year of 2008 (7.4% in DKK terms)
- Combined ratio improved to 80.0 from 81.9 in the first half of 2007
- Technical result up DKK 109m to DKK 636m

| DKKm | Q2 2007 | Q2 2008 | Change 2007/2008 | H1 2007 | H1 2008 | Change 2007/2008 |

| Combined ratio | 80.4 | 80.1 | 0.3 | 81.9 | 80.0 | 1.9 |

Premiums

Gross earned premiums in Corporate increased by DKK 187m in the first six months of 2008, or 6.6% (7.4% in DKK terms), relative to the same period of 2007. In the second quarter of 2008, gross premiums rose by DKK 83m, or 5.6% (6.4% in DKK terms). Since the second quarter of 2007, Corporate has significantly outperformed the estimated market growth due to the addition of several new large customers. The Norwegian part of the Corporate business recorded growth of 7.2%, whereas the Danish part contributed a growth rate of 5.9%. The first half-year of 2008 showed signs of mounting competition in the Corporate business, which is likely to result in lower growth going forward.

TrygVesta has employed a manager for the Swedish part of the corporate business, and the Corporate business will open an office in Stockholm, Sweden at the beginning of September 2008.

Claims

The claims ratio, net of ceded business, performed favourably at 69.7 in the first half of 2008 from 71.5 in the same period of 2007 and benefited from lower claims expenses for large claims, which totalled a gross amount of DKK 78m DKK against DKK 354m in the same period of 2007.

Based on the claims performance and the level of claims paid in the first half of 2008, provisions for prior-year unsettled claims were reduced by DKK 240m. The run-off result was impacted in particular by provisions for motor insurance in Denmark and personal accident insurance in Norway, as actual developments proved to be better than

expected. The run-off result had a positive impact of 8.9% on the claims ratio, compared with 5.2%, or DKK 140m, in the first half of 2007.

Expenses

Costs rose from DKK 262m to DKK 280m, or over 7%. The increase was particularly attributable to extraordinary income recognised in 2007 as a result of reversals of provisions relating to losses on reinsurers. Overall, the expense ratio fell from 10.4 to 10.3.

Technical result

The technical result increased by 21% to DKK 636m in the first half of 2008 mainly due to higher premium levels, a reversal of prior-year provisions as a result of a changed assessment of the performance of the personal accident lines and the stable quality of the business.

Combined ratio

The combined ratio amounted to 80.0 in the first half of 2008 relative to 81.9 in the same period of 2007. Large claims affected the combined ratio adversely by 2.2 percentage points in the first half-year of 2008 against 7.9 percentage points in the same period of 2007. Run-off gains and the effect of interest rates through discounting of provisions for claims impacted the combined ratio favourably by 8.9 percentage points and 9.9 percentage points, respectively, compared with 5.2 percentage points and 7.6 percentage points in the same period of 2007.

Finland

Our Finnish branch sells insurances to private household customers and small enterprises under the brand name of Nordea Vahinkovakuutus. Insurances are sold by Nordea's branches, our own sales force and call centres, car dealers and via the Internet. The Finnish branch has 145 employees.

- Finland achieved just under two-thirds of its sales target for 2008 during the first half-year
- Gross earned premiums were up by 38.2% in the first half-year of 2008 (37.8% in DKK terms)
- Combined ratio of 95.3 in the private business in the first half of 2008
- At 30 June 2008, the portfolio totalled approximately DKK 400m

| Combined ratio | 124.2 | 104.6 | 19.6 | 121.8 | 115.2 | 6.6 |

In Finland, gross earned premiums rose by DKK 45m, or 37.8%, in the first half-year of 2008 compared with the same period of 2007. In the second quarter of 2008, gross premiums were DKK 24m, or 38.7%, higher than in the second quarter of 2007. The increase was particularly pronounced in terms of sales via the Internet, which accounted for 5% of overall sales at 30 June 2008. The larger and broader distribution network implemented in the late summer of 2007 showed strong results and, despite an ambitious full-year sales target, two-thirds of this target was achieved in the first six months of the year.

Net growth in the number of policies sold was 47,000 in the first half of 2008, and the Finnish business had a total portfolio amounting to approximately DKK 400m.

Sales of commercial insurance recorded a sustained strong performance, and efforts are being made to launch new insurance packages in this segment.

The strong growth in the Finnish business and the plans for continued growth give rise to an ongoing requirement for attracting qualified employees. In the first half-year of 2008, the number of employees rose to 145. In addition, the Finnish business has 40 affiliated insurance agents.

The claims ratio, net of ceded business, was 44.1 in the second quarter of 2008 against 75.8 in the same period of 2007. The size and claims history of the Finnish business is now sufficient to assess the quality of the portfolio, which was done at 30 June 2008, resulting in run-off gains of DKK 15m in the first half of 2008. This shows that the Group has the same conservative approach to reserves in Finland as it does in its other business activities.

The combined ratio was 104.6 relative to 124.2 in the same period of 2007. In the private business, the combined ratio amounted to 80.6 in the second quarter of 2008 against 105.1 in the same period of 2007.

| Technical result | -26 | -35 | -34.6% | -44 | -61 | -38.6% |
| Key ratios | | | | | | |
| Gross claims ratio | 105.9 | 103.7 | 2.2 | 103.8 | 99.0 | 4.8 |
| Business ceded as % of gross premiums | 0.0 | -1.9 | 1.9 | 0.0 | 0.0 | 0.0 |
| Claims ratio, net of ceded business | 105.9 | 101.8 | 4.1 | 103.8 | 99.0 | 4.8 |
| Gross expense ratio | 152.9 | 59.3 | 93.6 | 169.2 | 61.6 | 107.6 |
| Combined ratio | 258.8 | 161.1 | 97.7 | 273.0 | 160.6 | 112.4 |

In Sweden, where the Group commenced activities in 2006, gross earned premiums increased by DKK 73m in the first half-year and by DKK 37m in the second quarter of 2008, which was better than anticipated. Weekly sales totalled between 2,500 and 3,000 policies, which resulted in a net inflow of 64,000 policies in the first half of 2008, of which 44,000 were written in the second quarter of 2008. The Swedish business had a total portfolio of SEK 303m (DKK 242m) at 30 June 2008. This rapid growth requires a continuous inflow of new employees to serve Nordea's branches and staff the business' own call centre. The number of full-time employees thus rose to 83 at 30 June 2008.

The claims ratio was 101.8 in the second quarter of 2008 compared with 105.9 in the same period of 2007. The claims ratio, which was 99 for the first half-year of 2008, reflected sound risk selection and a prudent provisioning policy and was satisfactory for a new portfolio.

The expense ratio fell from 152.9 to 59.3 from the second quarter of 2007 to the second quarter of 2008, mainly attributable to gross earned premium growth. Gross expenses totalled DKK 32m in the second quarter of 2008. A direct year-on-year comparison should take into account the very high growth rate for the business.

As previously mentioned, TrygVesta's cooperation with DLG also comprises Sweden, and this new sales channel will support sustained rapid growth in the Swedish business going forward.

Investment activities

TrygVesta's investment activities comprise any placement of the Group's funds in investment assets, bonds, equity investments, land and buildings or cash.

- Investment return of DKK 225m or 0.9% including value adjustments of provisions
- Reduction of the proportion of equities in January 2008 lowered the risk of loss on equities
- Rising interest rates resulted in capital losses on the bonds, but yielded gains from the discounting of provisions

| Return on investment activities | 322 | -135 | -457 | 474 | -500 | -974 | | |

*) Return on properties includes a calculated return on owner-occupied property. The balancing item is recognised in "Other financial income and expenses" to the effect that the total return shown corresponds to the investment return according to the income statement which does not include return on owner-occupied property.

**) DKK 192m sold on futures contracts has been deducted from the equity portfolio

***) The item comprises interest on operating assets, bank debt and reinsurance deposits, exchange rate adjustment of insurance items, costs of investment activities and offsetting of return on owner-occupied property.

TrygVesta's investment portfolio of approximately DKK 37.1bn produced a return of DKK 14m in the first half-year of 2008. Including gains relating to a higher discount rate on provisions, the return was DKK 346m, or 0.9%. In the second quarter of 2008, the return was DKK 285m, or 0.8%, equivalent to 3.1% p.a. despite sustained turmoil in the financial markets.

TrygVesta matches assets and liabilities (bond portfolio and insurance provisions), thereby roughly neutralising the exposure to interest rate fluctuations.

Due to a substantial increase in short-term interest rates, the bond return was negative in the second quarter. This impacted on the overall return despite the Group's strategy to match the interest rate risk of assets and liabilities. The interest rate increase yielded an almost equivalent gain on provisions. The continued decline in equity markets had only a slight effect on the return in the second quarter as a result of the substantial reduction of the equity portfolio in 2007 and January 2008.

The equity portfolio yielded a loss of DKK 466m in the first half of 2008, of which only DKK 44m was attributable to the second quarter. At 30 June 2008, the portfolio of equities totalled almost 5% of the investment portfolio. The equity investment portfolio comprises 22% Nordic, 12% UK, 29% other Europe, 19% US, 5% Americas (non-US) and 13% Asia.

ir@trygvesta.com
CVR. NO.
26460212

Interest rate movements reduced the investment return by a net amount of DKK 84m in the first half-year of 2008, comprising positive value adjustments on provisions of DKK 332m as a result of the rising interest rates and a capital loss on bonds of DKK 416m. Overall, the bond portfolio yielded a return of DKK 391m in the first half of 2008, including a negative contribution of DKK 131m from the second quarter of the year.

At 30 June 2008, the bond portfolio accounted for some 86% of the total investment portfolio. The bond portfolio principally comprises 60% Danish mortgage bonds and 24% government bonds. Around 80% of the Danish mortgage bond portfolio is placed in short-term, non-callable bonds or floating rate bonds. Rising bond yields in the second quarter of 2008 produced a negative bond return, which was, however, more than off-set by gains on provisions as a result of a higher discount rate.

70% of the bond portfolio is placed in AAA-rated bonds, 17% in AA-rated bonds and 8% in A-rated bonds. The remaining part of the portfolio is placed primarily in unrated money market certificates with good credit quality issued by Norwegian banks.

In May 2008, TrygVesta acquired the head office buildings in Ballerup for an amount of DKK 1,085m. This brought the proportion of real estate to approximately 10% of the investment assets, of which 4% related to the head office buildings.

TrygVesta continues its policy of not investing in hedge funds, structured products or similar investment vehicles, and the Group's portfolio does not hold any subprime related products.

| Cash dividend paid during the period | 2,244 | 0 | 1,156 |
| Equity at end of period | 10,010 | 10,057 | 8,846 |
| Equity by the end of Q2 2008 and adjusted for resolved distribution * | 7,449 | 7,496 | 7,865 |

TrygVesta's equity amounted to DKK 8.8bn at 30 June 2008 against DKK 9.1bn at the year-earlier date. Including hybrid capital of DKK 1.1bn, the total capitalisation amounted to DKK 9.9bn.

The cash dividend for the financial year 2007 of DKK 1,156m was paid in the second quarter of 2008. Moreover, shares worth DKK 424m were bought back during the same period, equivalent to approximately 30% of the total share buyback programme. TrygVesta's share buyback programme was initiated after the annual general meeting held on 3 April 2008. It has been resolved to buy back shares worth DKK 1,405m during the period until the day before the release of the 2008 Annual Report on 3 March 2009. Adjusted for the total share buyback programme, shareholders' equity stood at DKK 7,865m at 30 June 2008.

The share capital comprised 68m shares of DKK 25 each, equivalent to DKK 1.7bn, at 30 June 2008. A total of 66,231,000 shares were outstanding, and TrygVesta held 1,769,000 treasury shares, comprising share buybacks and cover of its stock option programme.

With respect to Standard & Poor's capital model, TrygVesta had available capital adjusted for dividends and share buybacks related to 2007 of DKK 9,476m, which should be seen relative to the capital requirement of DKK 8,220m. The capital requirement is determined based on Standard & Poor's capital model plus an additional capital requirement of 5% added by TrygVesta to give the Group a higher degree of certainty that it will meet its A-rating at all times.

A simplified capital model updated to include first half-year 2008 financial data is available at www.trygvesta.com under the menu item Investor Relations/key figures.

Financial outlook

TrygVesta increases the outlook for the technical result from DKK 2.4bn to DKK 2.6bn, maintains the outlook for pre-tax profit but reduces the outlook for the profit after tax with DKK 0.1bn to DKK 1.5bn as a result of financial market turmoil. In the first half-year of 2008, TrygVesta recorded an underlying reduction in its insurance operations as a result of claims inflation and higher payroll costs. This was off-set by a strong first half-year performance which was only slightly impacted by large claims and weather-related claims.

| DKKm | Actual | | Forecast | | Negative scenario | Positive scenario |
|---------------------------------|--------|-------------|------------|-------------|-------------------|-------------------|
| | 2007 | 2008 (Feb.) | 2008 (May) | 2008 (Aug.) | | |
| Premium growth* | 4% | 5% | 5% | 5% | | |
| Technical result before run-off | 2,077 | 2,200 | 2,200 | 2,200 | 2,050 | 2,350 |
| Technical result after run-off | 2,820 | 2,200 | 2,400 | 2,600 | 2,450 | 2,750 |
| Investment result | 340 | 400 | 0 | (300) | | |
| Profit before tax | 3,109 | 2,500 | 2,300 | 2,300 | 2,150 | 2,450 |
| Profit after tax | 2,266 | 1,900 | 1,600 | 1,500 | 1,400 | 1,600 |
| Combined ratio | 86.1 | 90 | 89 | 88 | 89 | 87 |

*In local currency.

Premiums

Earned premiums are expected to increase by some 5% in local currency terms, which is unchanged relative to the figure communicated in connection with our first quarter report. The premium growth rate assumes no major changes in the competitive environment.

Combined ratio

The combined ratio is now expected to be around 88 due to the performance of the second quarter of 2008. This outlook is based on a recognised positive impact from provisions for claims relating to prior-year claims, an underlying deterioration of claims relating to the current year as a result of a higher number of claims and a positive impact from the discounting of provisions of claims at a higher rate of interest. Accelerating price increases impacting claims and cost constitute a challenge for the Group, but we are ready to take the necessary steps to neutralise this impact.

Claims

At the beginning of the year, expenses for large claims were expected to amount to DKK 500m for the full year 2008. Large claims totalled DKK 179m in the first half of 2008. For the remainder of 2008, we expect large claims in the amount of DKK 250m.

At 1 January 2008, weather-related claims expenses were expected to be DKK 225m for the full year. Weather-related claims amounted to DKK 57m in the first six months of 2008, which does not change the assumptions for 2008. For the remainder of 2008, we expect weather-related claims of DKK 170m.

Run-off

The run-off result or changes in provisions for claims amounted to DKK 393m in the first half-year of 2008, corresponding to 4.6 points in the combined ratio. A run-off of zero is assumed for the remainder of the year.

Expenses

The forecast that the expense ratio will be slightly lower than the full-year 2007 expense ratio of 16.7 is retained. The performance is impacted by continued cost restraint. The Danish and Norwegian activities will continue to reduce their expense ratios, while Finland and Sweden will push up the expense ratio by around 0.7 percentage point.

Technical result

The technical result is expected to be DKK 2,6bn for the full year 2008 against the previous forecast of DKK 2,4bn. The forecast of a higher technical result is based on our expectation of a positive impact from prior-year claims and the discounting of provisions for claims at a higher rate of interest.

Investment return

The investment result after transfer of technical interest for 2008 is expected to amount to a loss of DKK 300m against the previous expectation of DKK 0m as indicated in connection with the first quarter report. The downgrade is attributable to a lower than expected decrease in equities of approximately DKK 80m, increased transferral to technical interest of around DKK 100m as a result of rising interest rates and a mismatch between the bond portfolio and claims provisions around DKK 120m. The outlook for the remainder of 2008 investment result is based on the investment result at 30 June 2008, and assuming annualised equity returns of 7.0%, real estate returns of 5.9% and bond returns of 6.1% for the remainder of 2008.

Tax

As capital gains and losses on equities are tax-exempt and non-deductible, the effective tax rate is subject to the performance of equity prices. We expect an effective tax rate for 2008 of 33% based on the assumptions described and the realised loss on equities.

Return on equity

If the announced forecasts are met, we expect to generate a return on equity of 14%-15% after tax.

Disclaimer

Certain statements in this report are based on the beliefs of management as well as assumptions made by and information currently available to management. Statements regarding TrygVesta's future results of operations, financial condition, cash flows, business strategy, plans and future objectives other than statements of historical fact can generally be identified by terminology such as "targets", "believes", "expects", "aims", "intends", "plans", "seeks", "will", "may", "anticipates", "could", "continues" or similar expressions.

A number of different factors may cause the actual performance to deviate significantly from the forward-looking statements in this report, including but not limited to general economic developments, changes in the competitive environment, developments in the financial markets, extraordinary events such as natural disasters or terrorist attacks, changes in legislation or case law and reinsurance. TrygVesta urges readers to refer to the section on risk management available in the annual report or on www.trygvesta.com for a description of some of the factors that could affect the Group's future performance or the insurance industry.

Should one or more of these risks or uncertainties materialise or should any underlying assumptions prove to be incorrect, TrygVesta's actual financial condition or results of operations could materially differ from that described as anticipated, believed, estimated or expected in this report. TrygVesta is not under any duty to update any of the forward-looking statements or to conform such statements to actual results, except as may be required by law.

Statement by the Supervisory Board and the Executive Management

The Supervisory Board and the Executive Management have today considered and adopted the interim report for the first half-year of 2008.

The interim report, which is unaudited and has not been reviewed by the company's auditors, is presented in accordance with IAS 34 Interim Financial Reporting, the Danish Financial Business Act and the requirements of the OMX Nordic Exchange Copenhagen for the presentation of financial statements of listed companies.

In our opinion, the interim report gives a true and fair view of the Group's assets, liabilities and financial position at 30 June 2008 and of the results of the Group's activities and cash flows for the period 1 January – 30 June 2008.

Furthermore, in our opinion the Management's report gives a fair description of developments in the activities and financial position of the Group, the results for the period and of the Group's financial position in general and describes significant risk and uncertainty factors that may affect the Group.

Notes

1 Accounting policies

TrygVesta's H1 2008 report is presented in accordance with IAS 34 Interim Financial Reporting and the financial reporting requirements for Danish listed companies of the Danish Financial Business Act and the Copenhagen Stock Exchange.

The application of IAS 34 means that the report is limited relative to the presentation of a full annual report and that the valuation principles are in accordance with International Financial Reporting Standards (IFRS).

Change in accounting estimates

The assumptions for the allocation of insurance operating expenses to acquisition and administrative expenses respectively were changed with effect from 30 June 2008. As a result, acquisition expenses total approximately 75% of insurance operating expenses, as compared with the previous total of approximately 65%. The change has no impact on the aggregate insurance operating expenses.

The accounting policies are except from change in accounting estimates unchanged from the annual report 2007. The annual report 2007 contains the full description of the accounting policies.

Description of segments

Please refer to 'Our business areas' in the Annual Report 2007 for a description of our Operating segments.

Depreciation/amortisation is included in gross operating expenses. The group has decided not to present depreciation/amortisation separately because they are managed at group level and are therefore not allocated to the individual segments. Other assets and liabilities are managed at group level and are therefore not allocated to the individual segments. These amounts are thus included under 'Other'.

Costs are allocated according to specific keys, which are believed to provide the best estimate of assessed resource consumption.

A presentation of segments broken down by geography is provided in 'Financial highlights and key ratios by geography.'
